### SOMETHING TO THINK ABOUT!!!

**Buzzard** - If you put a buzzard in a pen that is 6'x8' & is open at top, in spite of its ability to fly, will be an absolute prisoner. A buzzard always begins a flight from the ground with a run of 10-12'. Without space to run, it will not attempt to fly, so it remains.

**Bat** - A bat cannot take off from a level place, all it can do is shuffle about helplessly until it reaches some slight elevation from which it can throw itself into the air.

**Bumblebee** - If dropped into an open container, it will not be able to get out. It never see the means of escape at the top, but tries to find its way out through the sides near the bottom.

**People** - In many ways, we are like the buzzard, bat & the bee. We struggle about with all our problems & frustrations, never realizing that all we have to do is look up. Sorrow looks back, worry looks around, faith looks up.
