Compared to the auction two weeks ago, steers & heifers traded steady to \$5.00 lower, with instances \$5.00-\$8.00 lower on heifer calves.

The cattle market along with most other ag commodities continues to struggle with low prices. On the brighter side warm & dry weather have the grain farmers in the area working overtime harvesting a very good crop. The nice weather has also allowed for some late hay baling, & in some instances yields have been better than first cuttings earlier this summer.
