MORE CATTLE PENDING!!

FEEDER CATTLE 12:00 PM

Comparted to the feeder special 2 weeks ago, feeder steers and heifers steady. The drought in NE Missouri is quickly intensifying as the past few months have seen much above normal temperatures with little to no rain. Most beef producers are already feeding hay, and what seemed like an abundant feed supply in the middle of summer now have producers counting bales to see if they have enough to get to spring.

Feeder Receipts: 1,000
